

HIGH ENERGY X-RAY TECHNIQUES

- Lectures covering fundamental synchrotron methods
- Hands-on data collection & processing
- Tips and instruction for writing a successful beamtime proposal

Hands-on Workshop

This workshop on High Energy X-ray Techniques (HEXT) at CHESS will give students the knowledge and skills needed to plan, conduct, and interpret synchrotron experiments to answer questions specific to their research interests.

May 16 - 17, 2023

Location:

Cornell High Energy
Synchrotron Source,
Ithaca, NY

**Some support for travel and
lodging may be provided**

Register at:

www.chess.cornell.edu/hext2023

The workshop is supported by NSF under award DMR - 2319653
